TonkaBlue

PUTT PUTT AWAY POLLUTION

**HOLE
3
NUMBER**

Bottles bottles everywhere
and not a drop to drink.
It takes 3 bottles of water
just to make one, now that
should make you think!

Think before you drink!
Bottled water wastes energy
and pollutes the environment.
It's often tap water in a bottle
anyway. So buy a reusable
bottle and drink from the tap.

Stop.

and think about your water
