

MINNEHAHA CREEK WATERSHED DISTRICT
JOINT MEETING OF THE RULEMAKING TASK FORCE
AND TECHNICAL ADVISORY COMMITTEE

Summary of May 28th, 2009 Meeting

Task Force Members Present: Tom Casey, Jill Crafton, Tom Aasen, James Vagle, Jim Johnston, Ginny Black, Tony Goldenstein, Bill Bushnell, David Newman.

Technical Advisory Committee Members Present: Jesse Struve, Cara Geheren, James Landini, Brent Lindgren, Pat Byrne.

MCWD Managers Present: Jim Calkins, Jeff Casale.

MCWD Staff Present: James Wisker.

Review of TAC Stormwater Management Recommendations

Mr. Wisker provided a summary of the TAC's meetings and process to develop recommendations for the stormwater management rule. He went on to present the TAC recommendations for single family subdivisions, redevelopment and road projects.

Members of the Task Force questioned the thresholds recommended for single family subdivisions (1 acre and 20% impervious) and requested the District perform some modeling or provide other justification if it chose to follow the TAC recommendations.

The Task Force also commented that the thresholds for single family subdivisions may be able to be broken into more of a sliding scale of requirements similar to the recommendations the TAC developed for redevelopment.

Mr. Wisker concluded the meeting by reminding the group that on June 18th, the MCWD Board would review the TAC recommendations before moving into creating the first draft of the stormwater rule.

The meeting concluded at 8:15PM
