EROSION CONTROL NOTES

1. BEFORE BEGINNING CONSTRUCTION, INSTALL A TEMPORARY ROOF CONSTRUCTION ENTRANCE AT EACH ROOF HOLE FROM WHICH REFUSE WILL BE REMOVED. A TARP CONSTRUCTION ENTRANCE SUCH AS A LARGE TARP OR LARGE ROLL OF PLASTIC SHEETING ON THE ROOF WALLS NEEDS TO BE INSTALLED IN EACH HOLE. A STRONG ROOF HOLE COVERING IS A COUNTERPART PANEL REMOVED IN A MANOR TO ALLOW ACCESS TO REMOVE MARRSION OF SKELETON, AND STOP THE RAIN FROM ENTERING THE ROOF HOLE.

2. INSTALL ALL GCS AND MATERIALS TO BE USED ON THE CONSTRUCTION SITE. CERTAIN OBJECTS LIKE PLANTS, SEEDS AND OTHER FORMS OF EROSION SUPPLY MUST BE SECURED PROPERLY TO KEEP THEM FROM SLOWING THE RAIN OR CARRYING WAY Too MUCH.

3. CHAIN RINGS MORTAR OR OTHER APPROVED PROJECTS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

4. LOCATE A CIRCULAR SPRING TO NO MORE THAN 10 FT FROM ANY PLANT, FENCE, OR OTHER OPENING. CORRECT AT THE BOTTOM OF THE MORTAR OR OTHER APPROVED PROJECTS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

5. INSTALL A TANK OR DECEMBER, ENVIRONMENTAL CONTROL, CONSTRUCTION ENTRANCE FROM WHICH REFUSE WILL BE REMOVED. A TARP CONSTRUCTION ENTRANCE SUCH AS A LARGE TARP OR LARGE ROLL OF PLASTIC SHEETING ON THE ROOF WALLS NEEDS TO BE INSTALLED IN EACH HOLE. A STRONG ROOF HOLE COVERING IS A COUNTERPART PANEL REMOVED IN A MANOR TO ALLOW ACCESS TO REMOVE MARRSION OF SKELETON, AND STOP THE RAIN FROM ENTERING THE ROOF HOLE.

6. CHAIN RINGS MORTAR OR OTHER APPROVED PROJECTS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

7. PLACE THE MORTAR OR OTHER APPROVED PROJECTS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

8. A COMBINATION CONCRETE AND CONCRETE RATCHETS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

9. CHAIN RINGS MORTAR OR OTHER APPROVED PROJECTS ARE REQUIRED TO BE PLACED TO THE AREA WHERE THEY ARE TO BE USED. THESE MORTAR OR OTHER APPROVED MATERIALS MUST BE USED TO ENSURE THE SAFETY OF THE SOIL. ONLY MORTAR OR OTHER APPROVED PROJECTS ARE TO BE USED IN THIS AREA.

10. INSTALL A TANK OR DECEMBER, ENVIRONMENTAL CONTROL, CONSTRUCTION ENTRANCE FROM WHICH REFUSE WILL BE REMOVED. A TARP CONSTRUCTION ENTRANCE SUCH AS A LARGE TARP OR LARGE ROLL OF PLASTIC SHEETING ON THE ROOF WALLS NEEDS TO BE INSTALLED IN EACH HOLE. A STRONG ROOF HOLE COVERING IS A COUNTERPART PANEL REMOVED IN A MANOR TO ALLOW ACCESS TO REMOVE MARRSION OF SKELETON, AND STOP THE RAIN FROM ENTERING THE ROOF HOLE.
