Title: Authorization to Release the 2020 MS4 Annual Report to the Minnesota Pollution Control Agency |

**Summary:**
The Minnehaha Creek Watershed District (MCWD or District) is a regulated municipal separate storm sewer system (MS4) under the National Pollutant Discharge Elimination System (NPDES) Phase II rules. This is because the District is the drainage authority for eight public drainage systems. These drainage systems are county and judicial ditches, which, in general, were established in the early 1900s. Authority for these public drainage systems was systematically transferred to the District by resolutions from the commissioners of Hennepin and Carver counties.

The NPDES Phase II rules require submittal of an annual report to the Minnesota Pollution Control Agency (MPCA) on progress toward implementing the provisions of the Storm Water Pollution Prevent Program (SWPPP), including any proposed revisions. These reports are due by June 30th of each year.

The annual report covers progress on six minimum control measures (MCMs). These MCMs include:

1. Public Education and Outreach
2. Public Participation and Involvement
3. Illicit Discharge Detection and Elimination
4. Construction Site Stormwater Runoff Control
5. Post-Construction Stormwater Management in New Development and Redevelopment
6. Pollution Prevention/Good Housekeeping (for Municipal Operations)

The attached report has been prepared to satisfy the District’s annual reporting requirements to the MPCA. Staff is requesting authorization to release the annual report to the MPCA.
Resolution number:  21-044

Title: Authorization to Release the 2020 MS4 Annual Report to the Minnesota Pollution Control Agency

WHEREAS, in light of its ownership and operation of a small municipal stormwater management facility, the Minnehaha Creek Watershed District (MCWD) has been designated a Municipal Separate Storm Sewer System (MS4) owner/operator, subject to permitting requirements under 33 United States Code section 1342; and,

WHEREAS, the National Pollutant Discharge Elimination System (NPDES) Phase II rules require an annual report submitted to the Minnesota Pollution Control Agency (MPCA) that describes the progress toward implementing the provisions of the District’s Storm Water Pollution Prevention Program (SWPPP); and,

WHEREAS, the report is due by June 30th of each year;

NOW, THEREFORE, BE IT RESOLVED that the Minnehaha Creek Watershed District Board of Managers accepts the 2020 MS4 Annual Report and authorizes its release to the MPCA.
